REMINDER: UCMR4 Begins This Month!

The EPA's fourth Unregulated Contaminant Monitoring Rule (UCMR) goes into effect this month. Community water systems serving more than 10,000 people are required to participate in this contaminant monitoring program. Surface water systems will be testing for all 30 contaminants on the list, while groundwater systems will test for 20 contaminants, which were selected by EPA for this round of monitoring. The UCMR program is designed to protect public health by looking for new and emerging drinking water contaminants to determine if any need to be added to the current list of Primary Drinking Water Contaminants that public water systems are required to test for.

Analysis of UCMR4 samples must be done by an EPA UCMR4 approved laboratory. Accurate Environmental is, once again, certified to analyze samples for all UCMR4 methods. Accurate Environmental has extensive experience with previous UCMR programs. Accurate Labs is nationally certified (NELAP) and one of the few labs in the country that is fully certified by EPA for all UCMR4 methods. What this means to the client, is that you can be confident Accurate Labs adheres to a strict quality control program to ensure that they are producing the most accurate data possible.

If you have received information from the EPA about the UCMR4 program or are a PWS over 10,000 and have not received any information, contact Danny Chance at (800) 516-LABS or email Danny@accuratelabs.com.

ACCURATE OPERATOR TRAINING CLASSES

AETC STILLWATER

FEBRUARY

02 Open Exams
06-08 D W & WW Oper
12-13 C WW Oper
19-22 C WW Lab
26-3/1 A/B W Lab

MARCH

02 Open Exams
06-08 D W & WW Oper
12-13 C W Oper

AETC TULSA

FEBRUARY

09 Open Exams
14-15 C W Oper
20-22 D W & WW Oper

MARCH

09 Open Exams
14-15 C WW Oper
20-22 D W & WW Oper
