

Accurate Environmental Laboratory and Training Center News and Information

Spring 2010

AETC Class Schedule

Stillwater Classes

MARCH

30 Gen. Refresher - W
30-01 C W Oper

APRIL

01 Int. Math Ref. - W
13 Gen. Refresher - WW
13-15 C WW Oper
15 Int. Math Ref. - WW
20-22 D W&WW Oper
26-29 B WW Lab
26-30 A WW Lab

MAY

18 - 20 D W&WW Oper

JUNE

03 QA/QC
10 Sampling
17 Biological Processes
24 Math

Tulsa Classes

APRIL

06 Gen. Refresher - WW
06-08 C WW Oper
08 Int. Math Ref. - WW
27-29 D W&WW Oper

MAY

25 - 27 D W&WW Oper

JUNE

08 Math
15 QA/QC
22 Biological Processes
29 Sampling

Exam Applications must be submitted to ODEQ at least 3 weeks prior to the scheduled test date. Download the DEQ Exam Application at our website www.accuratelabs.com

Accurate Knowledge...

"We imagine a school in which students and teachers excitedly and joyfully stretch themselves to their limits in pursuit of projects built on their vision...not one that succeeds in making apathetic students satisfying minimal standards."

~ Seymour Papert

At Accurate Environmental Training Center, our philosophy is much the same. One should embrace education in an effort to develop to his or her maximum potential. We foster this concept by utilizing multiple instructors with a variety of backgrounds and teaching styles for each of our certification classes. And, by teaching operator math using the Davidson Pie Chart Formulas, as well as the standard formulas, we are able to tailor instruction to suit the needs of each individual student. Our goal is to equip the operator with the knowledge and skills necessary for personal success, as well as having a better understanding, appreciation, and working knowledge for their position in the field of treating water and wastewater.

Students that attend AETC classes have a 90% passing rate for Class "D" Operator certification, and a 95% passing rate for Class "C" Laboratory certification. We take great pride in the training we provide to operators and laboratory technicians in the field of water and wastewater treatment, and our high passing rates are good indicators of the exceptional quality of training that we continually strive for.

Accurate Environmental Training Center offers full-day and half-day classes for water and wastewater operator and laboratory training. Curriculum is based on the State of Oklahoma Certification Study Guides and the California Manuals. Accurate Environmental operates state-of-the-art training centers in Stillwater and Tulsa to allow for convenient scheduling and high quality training to meet the needs of operators throughout the state.
