AETC Training Makes All The Difference

For nearly 30 years, Accurate Environmental Training Center (AETC) instructors have been designing, troubleshooting, and providing operational assistance to water and wastewater treatment plants. Their expertise encompasses every type and size of treatment system in Oklahoma. No other training service provider in the State can offer the level of experience and knowledge that Accurate Environmental Training Center does. Because Accurate Environmental works with over 90% of Oklahoma's community water and wastewater systems, their instructors are able to relate operator and laboratory training to each individual according to the type of system at which they work. And, unlike other training service providers, Accurate Environmental offers a support network for their students that serves as an invaluable resource for the operators even after completing their training, which includes 24-hour emergency contacts in case of drinking water emergencies.

Besides providing the highest quality training with seven highly educated and experienced instructors helping to produce the most effective operators, a primary goal of AETC is to motivate operators to continue learning and improving their own working knowledge and skills. This is accomplished by staying up to date on the most current operational and laboratory information available and providing training in state-of-the-art classrooms in order to keep the educational process exciting, as well as relevant to today's operators. And because the quality of education that Oklahoma's operators receive is the main concern for AETC, they have not raised their prices in nearly 8 years, while continuously upgrading and improving their training programs.

At first glance it may seem like there is little difference from one training service to another, but operators who receive AETC training quickly realize that is not the case. Operators who want to move up and succeed in the water and wastewater industry must have an in-depth understanding of the systems and processes that they are dealing with. Accurate Environmental Training Center is here to help those operators reach their goals and provide support along their journey to ensure that they have the tools and resources they need to excel in their field. Something that must never be overlooked when it comes to training is that it's not only the operator's success at stake, but also the health and safety of our communities. So, when it comes to operator and laboratory training, choose Accurate Environmental Training Center and you, too, will discover how AETC is making a difference through quality training.

STILLWATER CLASSES

APRIL

02 – 05 "B" Wastewater Operator
02 – 06 "A" Wastewater Operator
10 – 12 "D" Water & Wastewater Oper
13 Exam Session #10296
16 – 19 "C" Water Laboratory
23 – 26 "B" Wastewater Laboratory
23 – 27 "A" Wastewater Laboratory

MAY

04 Exam Session #10297
08 – 10 "D" Water & Wastewater Oper

JUNE

07 Biological Processes/Activated Sludge
14 Quality Assurance & Quality Control
21 Intermediate Math / Advanced Math
28 Sampling

JULY

06 Exam Session #10298
10 – 12 "D" Water & Wastewater Oper
17 – 19 "C" Wastewater Operator
23 – 26 "C" Water Laboratory

TULSA CLASSES

APRIL

06 Exam Session #10292
17 – 19 "C" Water Operator
24 – 26 "D" Water & Wastewater Oper

MAY

11 Exam Session #10293
15 – 17 "C" Wastewater Operator
22 – 24 "D" Water & Wastewater Oper

JUNE

05 Sampling
12 Intermediate Math / Advanced Math
19 Quality Assurance & Quality Control
26 Biological Processes/Activated Sludge

JULY

13 Exam Session #10294
24 – 26 "D" Water & Wastewater Oper

Accurate Environmental is one of the nation's most unique and comprehensive environmental service providers. They not only operate the largest commercial environmental lab in Oklahoma and state-of-the-art operator and laboratory training centers, but also provide laboratory supply sales, field and sampling services with weekly sample pick-up routes, as well as environmental and engineering services.

Accurate Labs is comprised of three full-service laboratories, including our headquarters in Stillwater and two additional labs in Tulsa and Oklahoma City. They provide analytical services for drinking water, wastewater, groundwater, soil, sediment, sludge, and hazardous waste. They are nationally certified through The NELAC Institute, and the only commercial lab in Oklahoma that is fully certified for drinking water analysis.

Accurate Environmental Training Center (AETC) is an award winning training center offering operator and laboratory certification and renewal classes at their classrooms in Stillwater and Tulsa. Using multiple instructors for each class, and various teaching methods, such as pie charts and standard formulas for math, AETC is able to tailor training to meet the needs of each individual student.

Accurate Laboratory Supplies (ALS) is an authorized Hach dealer that can save you valuable time and money on all your laboratory supplies, chemicals, and equipment needs with one simple phone call. ALS even offers FREE DELIVERY to clients along their routine sample pick-up routes.

Accurate Field Services, with a team of well-trained field service technicians, provides field and sampling services throughout the state for drinking water, wastewater, soil, sludge, and hazardous waste. Accurate Field Services also has weekly sample pick-up routes to provide their clients with a fast, economical, and safer way to get samples to Accurate Labs for analysis.

Accurate Engineering Services (AES) provides expert technical assistance related to municipal and industrial water, wastewater, solid wastes and biosolids, industrial pretreatment, and environmental site assessments. AES is here to help your system meet EPA and DEQ rules and regulations, improve operation performance, and reduce operating costs.
