Oct – Lead Testing

## ACCURATE ENGINEERING SERVICES

The many environmental services **Accurate Environmental** provides are not limited to the laboratory and the classroom. **Accurate Engineering Services (AES)** can provide environmental engineering assistance to rural, municipal and industrial treatment facilities and land developers in need of environmental services.

**Treatability studies** make up the most essential service **AES** offers to water and wastewater treatment plants. By **conducting bench scale treatability studies**, AES can help clients gain the **necessary approval for process changes** or determine the treatment approach that **maximizes efficiency and cost-effectiveness** while meeting the facility's specific needs.

**Phase I and Phase II environmental site assessments** allow private or commercial land owners and developers to identify and respond to **potential environmental contamination liabilities**. Utilizing **standard ASTM practices**, a licensed engineer assesses the records, underlying land, and planned physical modifications associated with the site to **determine environmental risk**. If the site is determined to be at risk of contamination, a Phase II assessment may be conducted to **investigate the nature and source of contamination**, so developers can **resolve the issue as quickly as possible**. **AES** can provide environmental site assessments **anywhere in the state**.

For more information about treatability studies, Phase I and II environmental site assessments, or the many other services

**Accurate Engineering Services** can provide, contact **David Kincannon, P.E.** at **1(800) 516-5227** or email **David@accuratelabs.com**.

To learn more about the wide range of services offered by Accurate Environmental, visit us on the web at [www.accuratelabs.com](http://www.accuratelabs.com) or call **(800) 516-5227**

# Water & Wastewater Operator Training

## STILLWATER CLASSES

### MAY

03 Open Exams  
07-09 D W & WW Oper  
13-14 C Water Oper  
20-23 C Water Lab

### JUNE

06 W & WW Refresher  
13 W & WW Refresher  
20 W & WW Refresher  
27 W & WW Refresher

### JULY

09-11 D W & WW Oper  
12 Open Exams  
15-18 A/B W Lab  
29-30 C WW Oper

## TULSA CLASSES

### MAY

10 Open Exams  
15-16 C WW Oper  
21-23 D W & WW Oper

### JUNE

04 W & WW Refresher  
11 W & WW Refresher  
18 W & WW Refresher  
25 W & WW Refresher

### JULY

19 Open Exams  
23-25 D W & WW Oper

**IMPORTANT:** Certification exams are offered on the last day of class. You must submit an exam application to the ODEQ at least 3 weeks before your scheduled test date. Copies of the DEQ application can be downloaded from the Accurate Labs and Training Center website at

[www.accuratelabs.com/training-center](http://www.accuratelabs.com/training-center)

You can also register for classes online, download copies of the DEQ operator study guides and lab manuals, and explore the wide range of services Accurate offers.

**For more information, or to register for training contact Jeff Clarke at (800) 516-5227 or email [Jeff@accuratelabs.com](mailto:Jeff@accuratelabs.com)**

**Accurate Labs** is comprised of three full-service laboratories, including our headquarters in Stillwater and two additional labs in Tulsa and Oklahoma City. They provide analytical services for drinking water, wastewater, groundwater, soil, sediment, sludge, and hazardous waste. Accurate Labs is nationally certified through The NELAC Institute, and the only commercial lab in Oklahoma that is fully certified for drinking water analysis.

**Accurate Environmental Training Center (AETC)** is an award-winning training center offering operator and laboratory certification and renewal classes at their classrooms in Stillwater and Tulsa. Using multiple instructors for each class, and various teaching methods, such as pie charts and standard formulas for math, AETC is able to tailor training to meet the needs of each individual student.

**Accurate Laboratory Supplies (ALS)** is an authorized Hach dealer that can save you valuable time and money on all your laboratory supplies, chemicals, and equipment needs with one simple phone call. ALS even offers FREE DELIVERY to clients along their routine sample pick-up routes.

**Accurate Field Services**, with a team of well-trained field service technicians, provides field and sampling services throughout the state for drinking water, wastewater, soil, sludge, and hazardous waste. Accurate Field Services also has weekly sample pick-up routes to provide their clients with a fast, economical, and safer way to get samples to Accurate Labs for analysis.

**Accurate Engineering Services (AES)** provides expert technical assistance related to municipal and industrial water, wastewater, solid wastes and biosolids, industrial pretreatment, and environmental site assessments. AES is here to help your system meet EPA and DEQ rules and regulations, improve operation performance, and reduce operating costs.
