Accurate Labs Leads The Way in PFAS Testing

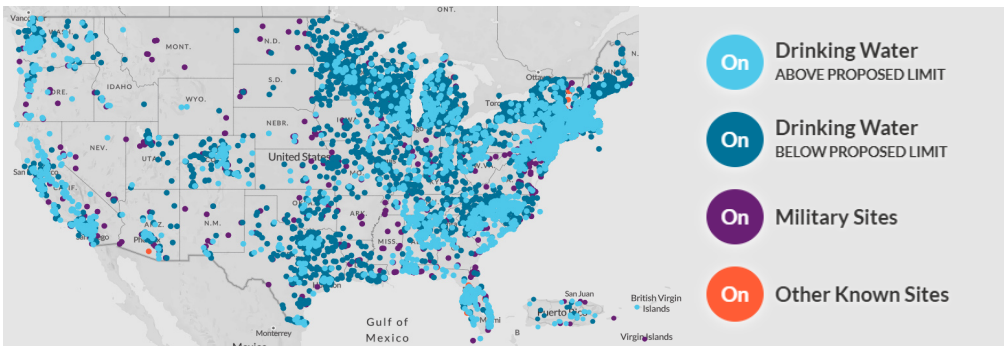
Per- and polyfluoroalkyl substances (PFAS) are a group of chemicals widely used in common items we all use every day, such as food wrappers, pizza boxes, non-stick cookware, carpets and upholstery, and many household fabrics to name just a few. Often called “forever chemicals,” PFAS do not break down naturally, leading to their accumulation in the environment and the human body. Studies have shown that PFAS exposure can have harmful effects on both humans and animals. According to a study by the Environmental Working Group, as of March 2025, 8,865 locations in the US and its territories have been identified as contaminated with PFAS. Additionally, it is estimated that more than 200 million Americans are served by water systems with PFOA or PFOS in their drinking water.

Accurate Labs has been approved by the EPA to test for PFAS in drinking water since the compound was included in the Unregulated Contaminant Monitoring Rule (UCMR) in 2012. The lab also uses EPA Method 1633 to analyze PFAS in wastewater and solid samples. With state-of-the-art **LC/MS/MS** analyzers and **over a decade of experience** in PFAS testing, **Accurate Labs** delivers **high-quality results** with some of the **fastest turnaround times** in the industry.

Accurate Labs provides sampling kits to clients, and samples can either be shipped to the lab or dropped off at one of three locations in Oklahoma — Stillwater, Tulsa, or Oklahoma City. Once the analysis is complete, clients receive a detailed analytical report identifying the detected PFAS compounds and their respective concentrations.

Accurate Labs’ expertise and **advanced technology** ensure **reliable results**, making them a trusted partner in addressing PFAS contamination concerns.

For more information about PFAS testing, contact Danny Chance at 405.372.5300 ext 113 or email danny@accuratelabs.com



TRAINING SCHEDULE

STILLWATER

APRIL

01-03	D W & WW Operator
04	Open Exams
09-10	C W Operator
28-05/01	C WW Laboratory

MAY

02	Open Exams
06-08	D W & WW Operator
14-15	C WW Operator
19-22	C W Laboratory

JUNE

05	Int. Math / Disinfection
12	Sampling-QA / Hands On Lab
19	DMR-MOR / Int. Math
26	Sampling-QA / Disinfection

TULSA

APRIL

07-08	C WW Operator
11	Open Exams
14-17	AB WW Operator
21-23	D W & WW Operator

MAY

09	Open Exams
12-13	C W Operator
19-21	D W & WW Operator

JUNE

03	Troubleshooting / DMR-MOR
10	Int. Math / Adv. Math
17	Troubleshooting / Disinfection
24	Int. Math / DMR-MOR

3910 E. 51st St.
Tulsa, OK 74135

Headquarters
505 South Lowry St.
Stillwater, OK 74074
