Annual Renewal Training

June is quickly approaching, and that means it's time to renew your ODEQ operator and laboratory licenses. All Oklahoma **DEQ Water and Wastewater licenses expire on June 30th** every year. In order to renew your license(s) you must submit a renewal form indicating which license(s) you are renewing, a \$46 per license renewal fee, and **you need to have taken at least 4 hours of DEQ approved training** between July 1st of last year and June 30th of the current year. ODEQ will mail out renewal forms to each operator indicating the licenses currently held and which renewal requirements have, or have not been met. The renewal forms are typically mailed to the operator's home address.

Accurate Environmental Training Center (AETC) began by offering annual renewal classes for Water and Wastewater operators and lab techs in 1998. It has always been the **goal of AETC** to provide **meaningful education** to operators in an effort to help them **develop a better understanding** of water and wastewater treatment and the **importance of their roles** as public health professionals. **AETC** makes this possible by having **seven DEQ certified instructors** on staff, **each an expert in the subject they teach**. Annual renewal training is intended to refresh and expand your knowledge and skills to help you **become a better operator**, in turn, **making you a more valuable asset** to the system. **AETC** offers a wide variety of renewal topics, allowing you to focus your refresher training in areas that will benefit you most.

There is no need to wait until after you receive the renewal form to schedule your annual renewal training. **AETC** has many ODEQ approved training opportunities between now and the end of June. Weekly, **4-hour refresher classes** are scheduled for **every Tuesday in Tulsa and every Thursday in Stillwater** throughout the month of June. Topics include Drinking Water and Soil Sampling, Wastewater and Sludge Sampling, Biological Processes (Secondary Treatment of Wastewater), Operator Math, and Laboratory Quality Assurance and Quality Control. Call today to reserve your spot in the best renewal classes around.

STILLWATER CLASSES

MAY

02 Open Exam Session #11754
06 – 08 "D" Water & Wastewater Oper
12 – 13 "C" Water Operator
19 – 22 "C" Wastewater Laboratory

JUNE

05 DW Sampling / WW Sampling
12 Biological Processes
19 Operator Math
26 QA and QC

JULY

08 – 10 "D" Water & Wastewater Oper
14 – 15 "C" Wastewater Operator
18 Open Exam Session #11885
28 – 31 "C" Water Laboratory

AUGUST

01 Open Exam Session #11884
05 – 07 "D" Water & Wastewater Oper
18 – 19 "C" Water Operator
25 – 28 "C" Wastewater Laboratory

TULSA CLASSES

MAY

09 Open Exam Session #11751
14 – 15 "C" Wastewater Operator
27 – 29 "D" Water & Wastewater Oper

JUNE

03 Biological Processes
10 DW Sampling / WW Sampling
17 QA and QC
24 Operator Math

JULY

11 Open Exam Session #11886
16 – 17 "C" Water Operator
22 – 24 "D" Water & Wastewater Oper

AUGUST

08 Open Exam Session #11887
11 – 14 "B" Wastewater Operator
20 – 21 "C" Wastewater Operator
26 – 28 "D" Water & Wastewater Oper

AETC Online Training Calendar

Accurate Environmental Training Center's (AETC) online training calendar allows you to view upcoming classes sorted by month, location, or type of class. The AETC training calendar also offers online registration for certification and renewal classes. The class listings on the calendar also provide important class info such as class descriptions, class/exam numbers, DEQ exam application deadlines, and more. Download all required forms from the AETC website including class registration packets and the current ODEQ exam application. Everything you need from class registration to applying for certification exams can be found on the Accurate Environmental website. Visit www accuratelabs.com for more information.

Accurate Environmental is one of the nation's most unique and comprehensive environmental service providers. They not only operate the largest commercial environmental lab in Oklahoma and state-of-the-art operator and laboratory training centers, but also provide laboratory supply sales, field and sampling services with weekly sample pick-up routes, as well as environmental and engineering services.

Accurate Labs is comprised of three full-service laboratories, including our headquarters in Stillwater and two additional labs in Tulsa and Oklahoma City. They provide analytical services for drinking water, wastewater, groundwater, soil, sediment, sludge, and hazardous waste. Accurate Labs is nationally certified through The NELAC Institute, and the only commercial lab in Oklahoma that is fully certified for drinking water analysis.

Accurate Environmental Training Center (AETC) is an award winning training center offering operator and laboratory certification and renewal classes at their classrooms in Stillwater and Tulsa. Using multiple instructors for each class, and various teaching methods, such as pie charts and standard formulas for math, AETC is able to tailor training to meet the needs of each individual student.

Accurate Laboratory Supplies (ALS) is an authorized Hach dealer that can save you valuable time and money on all your laboratory supplies, chemicals, and equipment needs with one simple phone call. ALS even offers FREE DELIVERY to clients along their routine sample pick-up routes.

Accurate Field Services, with a team of well-trained field service technicians, provides field and sampling services throughout the state for drinking water, wastewater, soil, sludge, and hazardous waste. Accurate Field Services also has weekly sample pick-up routes to provide their clients with a fast, economical, and safer way to get samples to Accurate Labs for analysis.

Accurate Engineering Services (AES) provides expert technical assistance related to municipal and industrial water, wastewater, solid wastes and biosolids, industrial pretreatment, and environmental site assessments. AES is here to help your system meet EPA and DEQ rules and regulations, improve operation performance, and reduce operating costs.
