Revitalizing Expertise: Elevating Water & Wastewater Professionals Through ATC Renewal Training

The annual license renewals for water and wastewater professionals with the Oklahoma Department of Environmental Quality (ODEQ) play a crucial role in maintaining the state's commitment to environmental sustainability and public health. The renewal process ensures that individuals in these fields stay current with the latest regulations, technologies, and best practices. Professionals seeking license renewal training through **Accurate Training Center (ATC)** engage in comprehensive training programs that cover a spectrum of topics, from water quality standards to wastewater treatment methodologies. ATC programs reflect its dedication to upholding high industry standards and fostering a skilled workforce equipped to address the evolving challenges in water and wastewater management.

ATC in Stillwater and Tulsa provides an essential platform for professionals seeking to renew their annual water and wastewater licenses. With a comprehensive training program tailored to meet industry standards, this center ensures that individuals stay updated on the latest regulations and practices. This year, **ATC has added some new refresher topics** for June including **DMR Preparation, Disinfection with an emphasis on Chloramine, and Hands-on Lab** refreshers for both water and wastewater.

The renewal training at **ATC** covers crucial aspects of water and wastewater management, including regulatory changes, safety protocols, and emerging technologies. The center employs **experienced instructors** who bring real-world expertise to the training sessions, creating a dynamic learning environment. Participants not only gain theoretical knowledge but also practical insights that can be applied in their daily work.

Accurate Training Center's annual license renewal program is recognized for its high-quality content and adherence to industry standards. By investing in this training, water and wastewater professionals ensure they remain at the forefront of their field, contributing to the sustainable and efficient management of vital resources in Oklahoma.

Don't forget that your annual renewal training needs to be done before July 1st.

For additional information about **ATC training or to register for classes**, contact **Jeff Clarke** at **(405) 372-5300 ext 144** or email **Jeff@accuratelabs.com**.
