- 18 – 21 **C Wastewater Lab**
- 21 (am) Hands-On WW Lab Ref

Training Center Update

There have been a few changes to the training schedule that I would like to point out. The Class "C" Water Laboratory class in July has been rescheduled for September. We are also looking at options to reschedule the Class "A"/"B" Water Operator class that was originally scheduled for July. If you are interested in the AB W Oper class, give me a call or send me an email and we can discuss the possible rescheduling dates. I hope to get some feedback so that we can move the class to a date that is convenient for the majority those interested.

For the most up-to-date AETC Training Schedule visit www.accuratelabs.com
Go to the Training Center page and click on the "Calendar" button.

If you would like to sign up for classes or need additional information, please contact
Jeff Clarke at (800) 516 – 5227 or jeff@accuratelabs.com

Exciting News for Accurate Labs and Our Clients

As you may already know, Accurate Labs is certified through the National Environmental Laboratory Accreditation Program (NELAP) for wastewater and hazardous waste. We are excited to announce that Accurate is now NELAP certified for **drinking water**, as well. We are the largest commercial environmental laboratory located in Oklahoma that is fully certified for drinking water analysis. In order for a lab to obtain NELAP certification, they must meet strict performance and quality control standards set by the NELAC Institute. With this nationally recognized certification you can be **confident** that reported data is **accurate** and **precise**, even when held to the highest standards. State-of-the-art equipment and a commitment to exceptional **customer service** allow us to provide results quickly and with **unsurpassed quality**. Three full-service labs in Oklahoma also makes us more accessible to our clients. This, along with our wide range of environmental services, has secured our position as one of the premier environmental laboratories in the nation. Whether you need laboratory analyses, technical advice, training, or supplies, Accurate Environmental is the only call you need to make. We are prepared to assist you with your environmental project of any scope or scale. Call today or visit us online!
