OPERATOR SERVICES

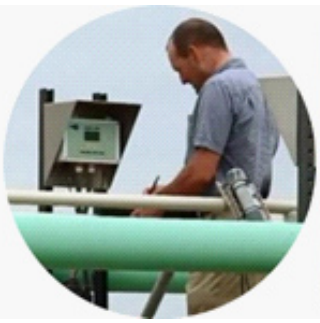
OPERATOR LEASING

Accurate Environmental's Operator Leasing Program is designed for municipal and rural water and wastewater systems in need of **short-term emergency operators** that can be contracted on a week-by-week basis. The current coronavirus pandemic has caused so much chaos and uncertainty that is has exposed the **critical importance of having a backup plan in place** in the event your operator(s) become ill or must be quarantined temporarily, leaving you with no one to operate your system.

The **Accurate Environmental Operator Leasing Program** can provide h**igh-level, experienced operators** to temporarily run your treatment system until a suitable replacement has been hired, or your operator is able to return to work. With **eight certified operators on staff,** Accurate Environmental offers a cost-effective option to fill in the gaps between your operator leaving and the hiring of his replacement. Once a new operator has been hired, Accurate can also help prepare them for their new role as your lead operator. The leased operator will **ensure that all required testing and documentation is properly completed** in a timely manner. The leased operator can also do a preliminary evaluation of the system to determine if the system is running properly and notify the system owner of any problems that need to be addressed.

The **Accurate Environmental Operator Leasing** program gives you peace of mind knowing that knowledgeable, experienced operators are ready to assist you with the operation of your drinking water or wastewater treatment system whenever the need arises. This service is also available in conjunction with the **Environmental Insurance** program, where Accurate Environmental Services can provide **technical assistance** to your operators to ensure that your system continues running as efficiently as possible and meeting all ODEQ and EPA contaminant limits.

For more information about O**perator Leasing or Environmental Insurance**, contact **Scott Taylor** at **800-516-5227** or **Scott@accuratelabs.com**



OPERATOR & LAB CLASS SCHEDULE

STILLWATER

SEPTEMBER
