Accurate Environmental has designed their website to be informative and helpful. Go to www.accuratelabs.com to discover the many environmental services Accurate has to offer. See how Accurate Environmental has put together a comprehensive environmental services company encompassing laboratory testing, engineering services, environmental training, field services and lab supply sales to help operators and lab technicians find the products and solutions they need to maintain their treatment systems as efficiently and cost effectively as possible.

If you have questions about your sampling requirements, or ODEQ and EPA rules and regulations, the Accurate Links page provides instant connection to many useful resources for water and wastewater industry personnel, including the Safe Drinking Water Information System (SDWIS) where you can find detailed water system information including your sampling schedules. Important forms, such as the Chain of Custody, and sampling instructions are also available to download from the website. Secure Client Data Access through Accuratelabs.com is also available so that clients may view their lab results as soon as they are posted. With Client Data Access your posted results are available to you 24 hours a day, 7 days a week.

Here are just a few features and benefits of the Accurate Environmental website:

- **Links to SDWIS, ODEQ, and EPA to help you stay on top of your treatment, testing, and certification requirements.**
- **Download copies of Accurate Labs' Chain of Custody (required documentation for all samples)**
- **Download step-by-step sampling instructions for over 30 different analyses**
- **View or print extensive listing of analytical methods used and pricing for hundreds of analyses**
- **Access reported lab results 24 / 7**
- **Contact forms for general questions about all Accurate Environmental services**
- **24 hour contact numbers for water or wastewater emergencies**

If you haven't already visited www.accuratelabs.com, or if it has been a while, take a few minutes to look at the many benefits and resources the website has to offer. While you're there, take a virtual tour of their three full-service laboratories in Stillwater, Tulsa and Oklahoma City by viewing facilities and equipment in the photo gallery. Get to know Accurate Environmental better by visiting them online today, or call for more information about the many ways Accurate provides environmental solutions.

STILLWATER CLASSES

OCTOBER

21 – 24 "A/B" Wastewater Laboratory

NOVEMBER

01 Open Exam Session #11442
05 – 07 "D" Water & Wastewater Oper
11 – 14 "A/B" Water Operator
18 – 21 "C" Water Laboratory

DECEMBER

03 – 05 "D" Water & Wastewater Oper
13 Open Exam Session #11443
09 – 10 "C" Wastewater Operator
16 – 19 "C" Wastewater Laboratory

JANUARY 2014

03 Open Exam Session
07 – 09 "D" Water & Wastewater Oper
13 – 14 "C" Water Operator
27 – 30 "C" Water Laboratory

TULSA CLASSES

OCTOBER

04 Open Exam Session #11437
16 – 17 "C" Wastewater Operator
29 – 31 "D" Water & Wastewater Oper

NOVEMBER

08 Open Exam Session #11438
19 – 21 "D" Water & Wastewater Oper

DECEMBER

06 Open Exam Session #11439
11 – 12 "C" Water Operator
17 – 19 "D" Water & Wastewater Oper

JANUARY 2014

10 Open Exam Session
15 – 16 "C" Wastewater Operator
21 – 23 "D" Water & Wastewater Oper

Accurate Labs Presents... at OWPCA Short School

Danny Chance, Technical Director for Accurate Labs will be presenting a one-hour Laboratory Quality Assurance and Quality Control presentation on Wednesday, October 2nd at 8:00AM for the 2013 Oklahoma Water and Pollution Control Association (OWPCA) Short School at Rose State College in Midwest City. You don't want to miss this presentation if you operate a lab at your treatment facility. During the breaks between presentations, be sure to visit the Accurate Labs booth in the vendor exhibition room. Ron and Jeff will be there to answer questions, or you can just stop by and say "hi" while you're making the rounds. Hope to see you there!

Accurate Environmental is one of the nation's most unique and comprehensive environmental service providers. They not only operate the largest commercial environmental lab in Oklahoma and state-of-the-art operator and laboratory training centers, but also provide laboratory supply sales, field and sampling services with weekly sample pick-up routes, as well as environmental and engineering services.

Accurate Labs is comprised of three full-service laboratories, including our headquarters in Stillwater and two additional labs in Tulsa and Oklahoma City. They provide analytical services for drinking water, wastewater, groundwater, soil, sediment, sludge, and hazardous waste. Accurate Labs is nationally certified through The NELAC Institute, and the only commercial lab in Oklahoma that is fully certified for drinking water analysis.

Accurate Environmental Training Center (AETC) is an award winning training center offering operator and laboratory certification and renewal classes at their classrooms in Stillwater and Tulsa. Using multiple instructors for each class, and various teaching methods, such as pie charts and standard formulas for math, AETC is able to tailor training to meet the needs of each individual student.

Accurate Laboratory Supplies (ALS) is an authorized Hach dealer that can save you valuable time and money on all your laboratory supplies, chemicals, and equipment needs with one simple phone call. ALS even offers FREE DELIVERY to clients along their routine sample pick-up routes.

Accurate Field Services, with a team of well-trained field service technicians, provides field and sampling services throughout the state for drinking water, wastewater, soil, sludge, and hazardous waste. Accurate Field Services also has weekly sample pick-up routes to provide their clients with a fast, economical, and safer way to get samples to Accurate Labs for analysis.

Accurate Engineering Services (AES) provides expert technical assistance related to municipal and industrial water, wastewater, solid wastes and biosolids, industrial pretreatment, and environmental site assessments. AES is here to help your system meet EPA and DEQ rules and regulations, improve operation performance, and reduce operating costs.
