Apr – Blue Green Algae

## UCMR4

### Accurate Labs EPA-Certified for All UCMR4 Methods

The **Unregulated Contaminant Monitoring Rule (UCMR)** is published every five years by the EPA and includes a new list of **30 unregulated contaminants to be monitored in public water systems**. Beginning in January 2018, all community water **systems serving more than 10,000 people are required to participate** in the UCMR4 monitoring. Surface water systems over 10,000 will monitor for all 30 of the contaminants (10 cyanotoxins and 20 additional contaminants) and ground water systems will only monitor for the 20 additional contaminants.

**Ten Cyanotoxins** – Total microcystins, microcystin-LA, microcystin-LF, microcystin-LR, microcystin-LY, microcystin-RR, microcystin-YR, nodularin, anatoxin-a & cylindrospermopsin.

**20 Additional Contaminants** – germanium, manganese, alpha-hexachlorocyclohexane, chlorpyrifos, dimethipin, ethoprop, oxyfluorfen, profenofos, tebuconazole, total permethrin, tribufos, HAA5, HAA6Br, HAA9, 1-butanol, 2-methoxyethanol, 2-propen-1-ol, butylated hydroxyanisol, o-toluidine & quinoline

**Analysis of UCMR4 samples must be done by an EPA UCMR4 approved laboratory. Accurate Environmental is, once again, fully certified to analyze samples for all UCMR4 methods.** Accurate Environmental has experience with previous UCMR programs. **Accurate Labs is NELAP certified and one of the few labs in the nation fully certified by EPA for all UCMR4 methods.** What this means to the client, is that you can be confident **Accurate Labs adheres to a strict quality control program** to ensure that they are **producing the most accurate results possible.**

If you have received information from the EPA about the UCMR4 program or are a PWS over 10,000 and have not received any information, **contact Danny Chance at (800) 516-LABS or email [Danny@accuratelabs.com](mailto:Danny@accuratelabs.com).**

## **AETC Stillwater Class Schedule**

### **D Water & Wastewater Operator**

October 3 – 5, November 7 – 9, December 5 – 7

### **C Water Operator**

December 11 – 12

### **C Wastewater Operator**

October 9 – 10

### **A/B Water Operator**

November 13 – 16

### **C Water Laboratory**

November 27 – 30

### **C Wastewater Laboratory**

October 23 – 26

### **A/B Wastewater Laboratory**

December 18 – 21

### **Open Exam Sessions**

October 6, November 3, December 1

## **AETC Tulsa Class Schedule**

### **D Water & Wastewater Operator**

October 24 – 26, November 28 – 30, December 19 – 21

### **C Water Operator**

October 11 – 12

### **C Wastewater Operator**

December 13 – 14

### **B Wastewater Operator**

October 16 – 19

### **Open Exam Sessions**

October 13, November 17, December 8

**IMPORTANT:** Certification exams are offered on the last day of class. You must submit an exam application to the ODEQ at least 3 weeks before your scheduled test date. Copies of the DEQ application can be downloaded from the Accurate Labs and Training Center website at

[www.accuratelabs.com/training-center](http://www.accuratelabs.com/training-center)

You can also register for classes online, download copies of the DEQ operator study guides and lab manuals, and explore the wide range of services Accurate offers.

**For more information, or to register for training contact Jeff Clarke at (800) 516-5227 or email [Jeff@accuratelabs.com](mailto:Jeff@accuratelabs.com)**
