## AETC Class Schedules

### Stillwater Classes

#### JANUARY 2011

**04 – 06 D W&WW Oper**  
18 (am) Gen. W Oper Ref  
**18 – 20 C Water Oper**  
20 (am) C W Op Math Ref  
24 (am) Gen. WW Lab Ref  
**24 – 27 C Wastewater Lab**  
27 (am) Hands-on WW Lab Ref

#### FEBRUARY

**08 – 10 D W&WW Oper**  
**21 – 24 B Water Lab**  
**21 – 25 A Water Lab**

#### MARCH

**07 – 10 B Wastewater Oper**  
**07 – 11 A Wastewater Oper**  
**15 – 17 D W&WW Oper**  
21 (am) Gen. W Lab Ref  
**21 – 24 C Water Lab**  
24 (am) Hands-on W Lab Ref

### Tulsa Classes

#### DECEMBER 2010

**28 – 30 D W&WW Oper**

#### JANUARY 2011

**10 – 13 B Water Oper**  
**10 – 14 A Water Oper**  
**25 – 27 D W&WW Oper**

#### FEBRUARY

01(am) Gen. W Oper Ref  
**01 – 03 C Water Oper**  
03 (am) C W Op Math Ref  
15 (am) Gen. WW Oper Ref  
**15 – 17 C Wastewater Oper**  
17 (am) C WW Op Math Ref  
**22 – 24 D W&WW Oper**

#### MARCH

**29 – 31 D W&WW Oper**

### Training Schedule Update

At AETC we do our best to schedule training classes so that they are regularly available throughout the year. Obviously, with thousands of operators, those class schedules aren't always in line with operator schedules. Because of this, it is not uncommon for AETC to receive requests for specific classes. Sometimes, during my regular contact with clients it is determined that there is a need for a class that we don't have scheduled. No problem. One of the many advantages of AETC is our class scheduling flexibility. Since we have designated classrooms in Stillwater and Tulsa, plus seven instructors on staff, we are able to add standard and specialized classes to our training schedule, as needed.

Recently, I have had numerous inquiries about a "C" Wastewater Lab class. Due to the amount of interest that I have encountered, AETC has added a "**C**" **Wastewater Lab** on **January 24<sup>th</sup> – 27<sup>th</sup>, 2011**. There are still a few spaces available, so don't wait. If you are interested, contact AETC today to reserve your spot in the class. The DEQ certification exam will be offered on the last day of class. Make sure you send your exam application to DEQ by the **January 6<sup>th</sup> deadline** if you plan to take the exam. If you need a copy of the DEQ exam application or any additional information contact **Jeff Clarke** at **(800) 516 – 5227** or email us at [jeff@accuratelabs.com](mailto:jeff@accuratelabs.com)

### Safeguard Your System with AES

**Accurate Environmental/Engineering Services (AES)** provides environmental technical services related to municipal and industrial water, wastewater, solid wastes and biosolids, industrial pretreatment, and environmental site assessments. We have the technical expertise necessary to help you meet EPA and ODEQ rules and regulations, to improve operation performance of treatment facilities, and to reduce operating costs.

One way that we do this is by providing a service we call **Environmental Insurance**. AES can provide our services as part of a monthly retainer program that is based on your needs and the size of your system. As part of the program, we can make **monthly visits** to your system, provide process operation **assistance and evaluations**, assist you with **correspondence** with the ODEQ, and help you prepare any required **reports**, such as the monthly Discharge Monitoring Reports (DMR) and annual Consumer Confidence Reports. The Environmental Insurance program allows you to focus on the day-to-day operation of your system, while we provide you with the data and assistance to improve the **efficiency and effectiveness** of your treatment process.

To find out more about how your system will benefit from **Environmental Insurance**, contact **David Kincannon** at **(800) 516-LABS** or email [David@accuratelabs.com](mailto:David@accuratelabs.com).
